Introduction:

The fact that almost 65% of the country's population comprises of young age particularly under age of 35 years is reason that our country has gain status of young nations in the world. Although it is true that the more the working eligibile population , the more the unemployment problems are, but if are to name one sector that is immensely contributing to resolve such issues, is the Micro, Small and Medium Enterprises sector. Comprising of almost 90% by Micro enterprises the sector largely covered urban and rural areas which are heart and soul of the nation.

With the continous efforts and initiative brought in by government, the sector is on its path of bringing India among the list of leading economies of the world. The sectors contemplates the idea of entrepreneuership and has categories the

same into Micro, Small and Medium based on the criteria of investment and now includes the Retail and wholesale trade businesses (who are eligible to avail the benefits of priority sector lending) vide government's circular dated 2nd July 2021

The **latest threshold given for MSME** published by M/o MSME vide its circular dated 1st June 2020 is as below:

- an investment up to Rs 1 crore and turnover up to Rs 5 crore are classified as Micro;
- an investment up to Rs 10 crore and turnover up to Rs 50 crore are classified as Small, and
- an investment up to Rs 50 crore and turnover up to Rs 250 crore are classified as Medium.

Similarly, the Startups though may be small companies but significantly contribution in economic growth. They helps in creating more jobs which means more employment, and more employment means an improved economy. The government of India vide its Notification No. G.S.R. 127 (E) DATED 19th February 2019 provided a **modified definition of Startup**. Therefore an entitiy is to considered as startup which is

- i. Upto a period of ten years from the date of incorporation/ registration, if it is incorporated as a private limited company (as defined in the Companies Act, 2013) or registered as a partnership firm (registered under section 59 of the Partnership Act, 1932) or a limited liability partnership (under the Limited Liability Partnership Act, 2008) in India.
- ii. Turnover of the entity for any of the financial years since incorporation/ registration has not exceeded one hundred crore rupees

- iii. working towards innovation, development or improvement of products or processes or services, or if it is a scalable business model with a high potential of employment generation or wealth creation.

Provided that an entity formed by splitting up or reconstruction of an existing business shall not be considered a 'Startup'.

Not only such startups bring economic dynamism, but such are also bringing new ideas to the table and generate competition. Perhaps that might be the reason that the government have now shifted its growth approach to make MSME's and Start-ups engines of India's Growth.

However in this entrepreneurship journey, the professionals who are excellent with regulatory and compliance procedure, well updated with various schemes and initiatives, statutory requirements can be of great help. These professionals can guide the prospective entrepreneurs in the capacity as

- Obtaining Project Financing/Term Loans;
- Capital Raising from other sources in the market;
- Conduct the Due diligence process before approaching the funds;
- Helps in establishing a corporate entity; Ensure all Statutory Filings and Register maintenance;
- Act as a legal advisor and representative and many more

The detailed list of opportunities for professionals in MSMEs and Startups:

The Professionals can provide Advisory services to MSMEs

1. Legal setting up of Enterprise (i.e. getting registration for startup, PAN, TAN, MSME etc.).
2. Selection of Organization Structure (Sole Proprietorship, Company, Partnership, LLP, OPC etc.).
3. Labour Law aspects.
4. Listing of MSMEs.

 - d. Terms and condition of work
 - e. Company policies etc
3. By laws – definite of working rules and regulations. Security provision etc.
 4. Business advisor- fund raising options/opportunities, compliance monitoring other statutory compliance and mandates, periodical check etc.
 5. Web portal of business-handling online query, improvisation, digital marketing
 6. Accounting and finance matter: Taxation and Finance are the key areas alongwith Secretarial Compliances. Professionals are playing very significant and crucial role to help smoothen the business operations.

Often it has been seen that most of the startup, MSMEs entrepreneurs are either unaware of available schemes / facilities or reluctant to avail it's benefits due to cumbersome application / approval process, resulting in shut down of their ventures even in the starting few years. Recognising the same the government has even provided mentorship facility on the startup india portal <https://www.startupindia.gov.in/> , where the prospective mentor can connect and get access to all registered startups on its portal. This step has created yet another professional opportunities for those willing to provide their expert advice and help nation move forward on its path of leading economy in the world.
